THE FIRST OF ITS KIND

A Strategic Event at a Pivotal Moment

The heart of Sicily is stepping into the global digital innovation conversation. The **Sicily Crypto Summit 2026** will take place on **July 18, 2026** at the **Centro Culturale Polivalente Michele Abbate in Caltanissetta**, under the patronage of the Municipality of Caltanissetta — the first summit of its kind on the island, designed to give Sicilian businesses, professionals and institutions a concrete compass for navigating the new digital finance landscape.

The timing is anything but coincidental. On **July 1, 2026, the EU's MiCA Regulation (Markets in Crypto-Assets) enters full application** across the European Union, ending the transitional period and fundamentally reshaping the rules for exchanges, operators and institutional investors. The Summit in Caltanissetta takes place just sixteen days after this watershed moment — making it the most timely forum in Southern Europe to understand what has changed, for whom, and how to act.

PROGRAMME

Key Topics on the Agenda

The 2026 edition will cover the themes defining the present and future of digital finance, with an approach designed to be accessible to industry professionals and first-time crypto explorers alike — entrepreneurs, institutions, investors and decision-makers:

European Regulation

MiCA in full effect and DAC8: what changes in practice for businesses and professionals

Blockchain & Infrastructure	Decentralised architectures, layer 2 solutions and real-world use cases
Real-World Asset Tokenisation (RWA)	The future of ownership in the digital economy
DeFi & Institutional Markets	Where traditional finance meets decentralised protocols
Artificial Intelligence & Web3	Technological convergence and emerging opportunities
Trading, Liquidity & Markets	How crypto markets operate under the new regulatory framework

THE VENUE

Centro Culturale Polivalente Michele Abbate

The choice of the Centro Culturale Polivalente Michele Abbate is a deliberate statement. A space rooted in community and cultural identity — becoming the stage for an event pointed firmly at the future. Not a neutral backdrop, but a place that carries meaning: that innovation can emerge anywhere, perhaps especially where no one expects it.

The full-day programme runs from **9:00 AM to 11:00 PM**, combining plenary keynotes, thematic panels, structured networking sessions, lunch, an aperitivo and a dedicated sponsor area — delivering a complete professional and relational experience in an authentic, high-profile setting.

THE FOUNDER

International Vision, Sicilian Roots

The Summit is founded by **Salvatore Riccardo Curatolo**, a Sicilian entrepreneur with over a decade of international experience built in the United Kingdom. Holding a degree in Economics from the University of Catania with a specialisation in macroeconomics, Curatolo has developed cross-disciplinary expertise spanning academia and the digital sector, with a vision that bridges traditional finance, global markets and technological innovation.

He is the Founder of **SpazioCrypto**, a multilingual editorial platform active across **9 international markets** (Italian, English, French, German, Spanish, Japanese, Korean, Chinese and Russian), with thousands of monthly readers and recognised as an **official media partner of Istanbul Blockchain Week 2024**. The Sicily Crypto Summit is his strategic decision to bring expertise, network and international vision back to Sicily — to build an ecosystem capable of engaging with global markets.

"Sicily has human capital, entrepreneurial culture and untapped potential. 2026 is the year Europe rewrites the rules of digital finance. There needs to be a place where the region can understand what is changing and how to position itself. The Summit was built to be that place."

— Salvatore Riccardo Curatolo, Founder SpazioCrypto · Founder Sicily Crypto Summit

PARTNERSHIP

Opportunities for Companies and Sponsors

The Sicily Crypto Summit 2026 offers structured partnership packages — **Bronze, Silver, Gold and Platinum** — including qualified visibility across the official website and event materials, branded physical presence on the day, dedicated speaking slots, direct networking with local, national and international decision-makers, and a first-mover positioning in Southern Italy's emerging Web3 ecosystem.

Investing in the Summit means taking an active role in building the future of digital finance in Sicily — at a moment when competitive advantage is being defined today. For partnership enquiries: marketing@spaziocrypto.com

VISION

A Long-Term Project

The Sicily Crypto Summit is not a standalone event but the first step of a long-term initiative aimed at: spreading digital and financial literacy across the region; fostering structured collaboration between Sicilian universities and businesses; opening a concrete dialogue between traditional banking and Web3 innovation; and attracting investment and talent to Southern Italy. The goal is to establish Sicily as a reference point in the conversation between economic tradition and global technological innovation.
